

PARVO VIRUS

DOG SICKNESS

Parvo is a virus that
makes young dogs
very sick

HOW TO STOP PARVO

Vaccinations from the vet are the only way to stop dogs getting sick from Parvo

The vaccination **won't help** if the dog is **already sick**

Keep your pup inside, away from the dirt, and away from other dogs until it gets a vaccination from the vet

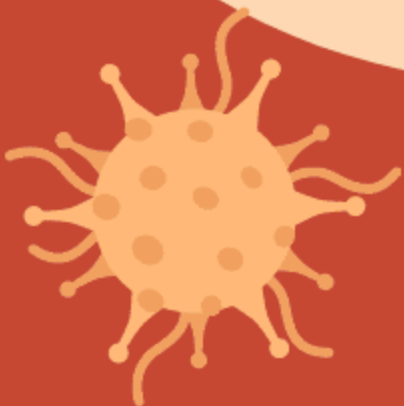

SIGNS

Dogs with Parvo get very sick, very quick

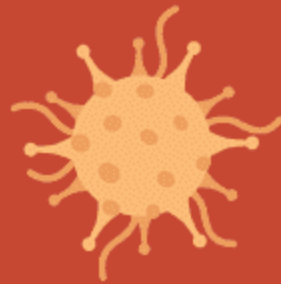

They will often:

- Stop eating
- Have bloody & smelly diarrhoea
- Vomit a lot
- Be very sad
- Get weak & skinny
- Die very suddenly

WHAT IS PARVO?

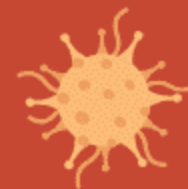

It is a sickness caused by a virus

**It spreads in the vomit and poo
of sick dogs, usually pups**

**It attacks the inside of a dogs
gut, making them very sick &
very painful**

**Parvovirus lives in dirt, grass,
and inside other sick dogs**

Want more info about **PARVO VIRUS?**

**Speak to the vet or AMRRIC
if you are worried about
Parvo and your dog**
