Cherbourg 24JAA – Capital Works/Projects

“Council is project managing multiple funded and proposed capital works programs. Whilst Council is in the process of negotiating an ILUA for Cherbourg, the need to construct works is becoming urgent, and waiting for the ILUA is not practicable, nor is it a guaranteed outcome of negotiations. In this respect, the Council is opting to use 24JAA to gain native title validity for eligible projects. The Council remains committed to the ILUA and will use the ILUA once registered for future projects. Until then, Council has no option but to gain native title validity through the existing native title provisions. Council seeks to use the expertise of the Program Office to issue the relevant 24JAA native title notices. Council will form a list of projects with details it wishes to use 24JAA for, and will provide those to the Program Office for analysis and advice, and subsequent issue of notices for eligible projects.”
